Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This house faces northwest onto Maryland Route 765. It is a two-story framed and weatherboarded 4-square house set on a concrete block foundation. The ridgeline of the hipped roof runs parallel to the facade. There is a hipped dormer with a pair of windows set into each face of the roof. There is an exterior brick chimney on the north end wall. The three-bay facade is composed of a central entrance sheltered by a glazed weatherlock and flanked on each side by a row of three windows. The windows have six-over-one double-hung sash. The roof was originally covered with decoratively molded sheet metal. It is now covered with asphalt shingles. The facade is sheltered by a one-story porch set on piers embellished with classical moldings. Rails and balusters connect the piers. There is a two-story ell that is original to the house. On the north side is a one-story sun room.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two-story frame house faces east. A cross-gable enhances the three-bay facade, and the entire north end terminates in a three-sided bay. A porch covers the facade, and a three-bay ell extends to the rear.

Two over two sash windows flanked by louvered shutters light the house. A central brick chimney heats the building.

Tin shingles cover the roof. Diamond-patterned wood shingles sheath the gables, and weatherboards cover the walls.
